Recruiting Players – Aiming for the best

Funds raised by members will ensure that 30 players are in attendance at The Player Development Programme in Spain at any time. The aim of the player development programme is to further develop players and to move them into professional clubs as quickly as possible. As soon as a player moves to a professional club, he will be replaced at the programme with another.

Players will be recruited from around the globe using The Higher Sports Academy's scouting network and only the very best available talent will be selected for the programme [players who have a genuine potential to become professional players].

All players selected for the programme will have a proven background in the sport before they are enrolled on the programme.
